

# EB-W03

## DATASHEET

The EB-W03 is our latest LCD projector that features a WXGA resolution, 1.2x optical zoom and equally high White and Colour Light Output of 2,700 lumens. This offers home users and small businesses colours that are three times brighter<sup>1</sup> than 1-chip DLP projectors.

### High quality, bright and vibrant images

This LCD projector effortlessly displays bright images with vivid colours for a crisp, clear picture: ideal for presentations and moving images, and is aided by the 10,000:1 contrast ratio. With an HDMI input, high definition video and audio content are easily played with the same high quality you would expect from the world's number one projector manufacturer<sup>2</sup>.

### Colour Light Output (CLO)

CLO is an important way of measuring a projector's ability to deliver colour and, like all Epson projectors, this model has an equally high White and Colour Light Output for a bright picture with vivid colours. For more information please visit: [www.epson.eu/CLO](http://www.epson.eu/CLO).

### User-friendly

Thanks to its manual keystone slider – unique to Epson – and automatic vertical keystone correction, this projector is quick and simple to set up. No matter the angle of the projector, you can easily align the projection to ensure a straight and correct image. The Colour Universal Design makes operating the projector easier, thanks to new LED colours and menu icons on the projector's control panel.

### Wireless projector

The optional wireless connectivity<sup>3</sup> allows you to show content easily from a range of devices without being connected to the projector via a cable.

### Eco-friendly

The EB-W03 features an eco tab setting, auto lamp dimming function and an A/V mute timer.
